 12:30-1:30 pm Lunch Main Ballroom
 12:30-1:30 pm Talk by Andy Sherman Legally Mine
 5.00 pm Boat cruise bus leaves from the hotel for the Hoboken pier (3 buses)
 6:30 pm Boat cruise boarding
 7-10 pm Boat cruise
 Dinner and dance and RaagaTonic
 Bollywood rock fusion live band
 10:30 pm Bus leaves the pier to the hotel

MONDAY AUGUST 22

7 am-9:30 am Brunch
 9-10 am Closing ceremony

Introduction

RAJMAAI
RAJASTHAN MEDICAL ALUMNI ASSOCIATION INC.

Rajasthan Medical Alumni Association, Inc. (RAJMAAI) was established in 1987 for alumni of all Medical Colleges in Rajasthan. This organization was established in order for alumni to meet, support existing medical facilities, and promote health care in rural areas. This organization also provides medical equipment, educational materials, and is a forum for communication and the exchanging of ideas amongst physicians and health related professionals who have roots in the State of Rajasthan.

The forum of Rajasthan has provided a venue for the physicians of the State of Rajasthan to channel and exchange their views which at times may be different from other communities. Thus, this association has filled a long awaited vacuum. Additionally, it provides a glimpse of the culture of the state of Rajasthan which our younger family members can't share and experience far away from Rajasthan.

GOVERNMENT MEDICAL COLLEGES

- S.M.S. Medical College, Jaipur (1947)
- S.P. Medical College, Bikaner (1959)
- R.N.T. Medical College, Udaipur (1961)
- S.N. Medical College, Jodhpur (1965)
- J.L.N. Medical College, Ajmer (1965)
- Govt. Medical College, Kota (1992)
- Jhalawar Hospital & Medical College, Jhalawar (2008)

RAJMAAI 2022 CME

CARDIOMETABOLIC SYNDROME

Location: Hilton Hasbrouck Heights
Date: Saturday, August 20th, 2022
Time: 8:00 AM – 12:00 PM

Agenda Items

| | | |
|------------------|---|--|
| 8:00 – 8:10 AM | Welcome & Introduction | |
| 8:10 – 8:40 AM | Who is at Risk for the Abnormal Heartbeat? Detection of Atrial Fibrillation and Prevention of Cardioembolic Stroke | <i>Dr. Rajat Goyal, MD, FACC, FHRS</i> |
| 8:40 – 9:10 AM | Peripheral Artery Disease A Very Misunderstood Disease | <i>Dr. Jayesh Dayal, MD</i> |

A Message from RAJMAAI President

Dr. Uday Chadha
Rajmaai President

Warm greetings and welcome to all the members and the attendees at the 31st annual RAJMAAI convention on behalf of RAJMAAI. It is an honor and privilege to serve as your President. The Purpose or Mission of RAJMAAI is as follow:

To promote research and dissemination of knowledge in the field of medicine, to support medical and mental health services in the communities at large in the North America and in India, to raise funds and provide equipment and educational material to healthcare facilities to plan promote and provide forum for communication and seminars for exchange of ideas amongst physicians and health related professionals to encourage professionals and students in the health field to achieve their goals by providing scholarships grants and awards and finally encourage cultural and social activities amongst members of RAJMAAI.

Covid Pandemic took some loved members of RAJMAAI from us, heartfelt Condolences to their families.

During Pandemic we had a high-level meeting with CM Mr. Ashok ji Gehlot and his Health team. The lack of oxygen in various hospitals across Rajasthan because of sudden rise in number of patients was the main issue identified at the time.

I am proud to announce that RAJMAAI members immediately started a fund-raising drive and donated more than \$100,000 worth of equipment to various medical colleges in Rajasthan in the form of oxygen concentrators which was in great demand at the time.

Dr. Shashi Shah through his Northwell group was able to send 100,000 masks and several Oxygen concentrators to Rajasthan, Dr Samin Sharma through his personal foundation also had a major fundraising drive and sent medical equipment to Rajasthan.

Everyone should feel proud of their RAJMAAI's contribution towards their Motherland. You would be pleased to know that one of your members Dr. Rajendra Bansal contributed \$50,000 and Dr. Brijendra Rawat \$20,000 towards this special cause . A special thank you to both.

All the preparations were made for A convention in Ottawa Canada last year but because of the second wave of COVID we had to cancel that.

RAJMAAI structure was rejuvenated board of trustees, members at large and various committees were formed. A proper letterhead was made. This year we are having our convention at Hilton Hasbrouck Meadowlands New Jersey. We have an excellent CME program. We are also starting our annual new initiative to help the young generation to enhance their medical career in USA by attending CME free of cost and networking with various academic members of RAJMAAI. I would like to thank all the members seniors and juniors and volunteers who help me put together this event. I hope you have a great time enjoying the various Rajasthani cuisine, the boat cruise and the entertainment waiting for you, Let the fun begin , we need this after a long pandemic lockdown, I hope you have awesome lifelong memories at this convention.

Please suggest ideas to promote RAJMAAI in the future for the upcoming generations.
I would like to thank all the sponsors and advertisers in making this convention a grand success.

I would also like to thank my wife Renu Chadha for putting up with me during the preparation of this convention.

Sincerely
Dr. Uday Chadha
RAJMAAI President

A Message from Convention Chair

Dr. Vinod Sancheti
Convention Chair

On behalf of RAJMAAI, I welcome everyone to the 31st Annual Convention in Hasbrook NJ. My first experience with RAJMAAI was at the Washington DC convention. The nostalgia that I experienced talking to my classmates and my fellow Rajmaai Collegues made me take a active role in Rajmaai. Ajay Lodha was instrumental in getting me involved in serving RAJMAAI. I helped Dr. Hemraj Porwal with the convention at Niagara, and Dr. Brahm Taparua in Atlanta, Dr Harish Chandana in Houston and Dr Hemaraj again in Toronto, Dr Sharad Kothari was special advisor at each location, I served the organization as President during Houston and Toronto.. The greatest purpose of this event in to reignite old friendships and build new ones. I welcome all of my seniors, juniors and fellow class mates.

We all know Rajmaai convention started with a small group of physicians gathering for dinner at one of the homes, it slowly grew to a one day event and now we are proud to meet at this multi day event to strengthen the camaraderie among the members.

This year we have revamped the website rajmaai.com, feedback to this is greatly appreciated. We have been updating our membership directory, have had a Face- book group for a few years now and more interesting we have a Rajmaai WhatsApp group. This provides an open communication amongst all. I am impressed and proud to say that this year the convention attracted maximum attendance from new Rajmaai members, showing the need to connect with the younger graduates/ physicians with Rajasthani Origin.

This years convention at the Hilton Hasbrook NJ, should be an unforgettable event. I have to thank my friends and alumni who have actively worked in putting together the entire event.

I want thank all our sponsors and advertisers and vendors for their support.

Friends, we have made sure that you all will be pampered and treated like a BARAATI. Now let the fun begin your participation and enthusiasm in each and every activity will make this convention a memorable one.

I urge you all to share and contribute to a broader perspective and envision a future RAJMAAI, a rejuvenated RAJMAAI. While socialization and fun are important, we cannot forget our responsibility to the combined alma matter, by giving back in the form of charitable activities, as well as educational events to fulfill the vision of RAJMAAI.

I look forward to personally meeting you throughout the convention.

Sincerely,
Dr. Vinod Sancheti

Message from Hon'ble Chief Minister Rajasthan

CHIEF MINISTER
RAJASTHAN

CM/Message/PRO/2022
Jaipur, 04 July, 2022

Message

I am glad to know that the Rajasthan Medical Alumni Association Inc. (RAJMAAI), is organising its annual international convention from August 19 to 22, 2022 in Meadowlands, New Jersey (U.S.A). A souvenir is also being brought out on this occasion.

Such conventions provide a good platform to deliberate on the past achievements of the organisation and also prepare a future roadmap. I am sure that the souvenir will contain valuable information which will be useful for the members of the RAJMAAI.

I extend my best wishes to all the members of the organisation and wish the publication a grand success.

Message from Hon'ble Governor, Rajasthan

नराज मिश्र
गुणपाल, राजस्थान

Kalraj Mishra
Governor, Rajasthan

संदेश

मुझे यह जानकर प्रसन्नता हुई है कि राजस्थान मेडिकल एल्युमनी एसोशिएशन ऑफ इंडिया द्वारा वार्षिक समारोह 2022 का आयोजन किया जा रहा है तथा आप इस अवसर पर एक स्मारिका का प्रकाशन कर रहे हैं।

मुझे यह बताया गया है कि राजस्थान में चिकित्सा शिक्षा ग्रहण करने वाले चिकित्सकों के इस संगठन का 1987 में गठन किया गया था और गठन के बाद से ही चिकित्सा सेवाओं की बेहतरी के लिए आप सभी कार्य कर रहे हैं। यह बहुत अच्छी बात है। मैं चाहता हूँ चिकित्सा में वैश्विक स्तर के शोध और अनुसंधान तथा मरीजों को उत्कृष्ट चिकित्सा सेवाएं प्रदान करने में आपके सहयोग से राजस्थान देश भर में अग्रणी बने। राज्य सरकार की निःशुल्क दवा योजना, निःशुल्क परीक्षण योजना, चिरंजीवी आदि जनकल्याण से जुड़ी योजनाओं का समुचित लाभ आम जन को मिले। आइए, निरोगी राजस्थान के लिए हम सब मिलकर कार्य करें।

विश्वास है, वार्षिक समारोह 2022 में चिकित्सा क्षेत्र में नवीनतम अनुसंधान, नवाचार और असाध्य रोगों के उपचार में सफलता की नई राहों पर महती विमर्श होगा। अपेक्षा है, चिकित्सा क्षेत्र में राजस्थान को सभी स्तरों पर अग्रणी करने के लिए भी आप सभी मिलकर सहयोग करेंगे।

चाहता था, आप सभी के साथ आयोजन में भाग लेता पर इसी दौरान पूर्व निर्धारित व्यस्तताओं के कारण यह सम्भव नहीं हो पा रहा है। आयोजन की सफलता के लिए मेरी हार्दिक शुभकामनाएं हैं।

Senior Vice President, Operations and Quality, Mount Sinai Heart
Director, Interventional Cardiology, Mount Sinai Health System
President, Mount Sinai Heart Network
Anandi Lal Sharma Professor of Medicine (Cardiology)

Clinical Interests:

Coronary Artery Disease
Interventional Cardiology
Atherectomy
Valvular Intervention

212-241-4021

samin.sharma@mountsinai.org

Samin K. Sharma, MD, is a renowned interventional cardiology expert well known for performing high-risk complex coronary interventions (more than

1,500 interventions per year) with an extremely high success rate (greater than 99 percent) while achieving an extremely low complication rate (less than 0.2 percent major complication). He has received the prestigious two-star designation (significantly lower than expected mortality) numerous times by the New York State Department of Health, and the Governor's Award of Excellence in Medicine in 1996.

He served on New York State's Cardiac Advisory Board from 2004–2016. Under Dr. Sharma's leadership, The Mount Sinai Hospital Cardiac Catheterization Laboratory has become one of the safest and busiest centers in New York, providing state-of-the-art cardiac and interventional care for all types of simple and complex heart patients. In addition to coronary interventions, Dr. Sharma specializes in the nonsurgical treatment of mitral and aortic valve disease, including transcatheter aortic valve replacement (TAVR) and MitraClip procedures (TEER).

He has been dubbed "master of the Rotablator" and is regularly featured on national and local TV (recently on CBS, TV Asia) and in newspapers and magazines including Newsday, Newsweek, the New York Times, the New York Post, Forbes, the Wall Street Journal, the New York Daily News, the Washington Post, New York Magazine, India Abroad, and India Today. He has received numerous awards: 2018 Chairman Board of Trustees, Association of Indians in America (AIA); 2015 Honorary Master of Science PhD degree by Rajasthan University Jaipur India; 2014 Distinguished Physician Scientist by AAPI-QLI for excellence in Medicine; 2011 Ellis Island Medal of Honor; 2011 American Heart Association Achievement in Cardiovascular Science & Medicine Award; 2011 American Association of Physicians of Indian Origin (AAPI) Physician of the Year; 2010 AIA for Excellence in Medicine; 2003–2007 and 2010–2021 Best Doctors by New York Magazine; 2008–2021 Super Doctors; 2007 Jacobi Medallion Award by The Mount Sinai Hospital; 2007 Physician of the Year by The Mount Sinai Hospital and 2000 Simon Deck Award for Outstanding Teacher of the Year.

He has authored more than 300 papers and 15 book chapters in the field of coronary interventions, structural heart disease and safety of percutaneous interventions. He is also a philanthropist, and The Mount Sinai Hospital Cardiac Catheterization Laboratory is now named the Dr. Samin K. Sharma Family Foundation Cardiac Catheterization Laboratory. Dr. Sharma has built a 250-bed heart hospital (EHCC) in his native Jaipur, India, to provide the best care to all patients irrespective of their financial and social status.

His live monthly webcast series, CCC Live Cases (www.ccclivecases.org), started in 2009 and has an audience of more than 25,000 viewers each month in 170 countries. He also enjoys teaching other cardiologists and improving patient outcomes with his annual Complex Coronary Cases (CCC) Symposium, which started in 1998. He is also the Director of the Top Ten Topics in Clinical Cardiology Course every October and the NY Transcatheter Valves Symposium every December.

Lucky Jain, MD, MBA

Emory University School of Medicine

Dr. Lucky Jain is the George W. Brumley, Jr. Professor and Chairman of Pediatrics at Emory University School of Medicine and the Chief Academic Officer at Children's Healthcare of Atlanta. He also serves as the Executive Director of the Emory + Children's Pediatric Institute. He previously served as the President and CEO of Emory Children's Center. In addition, he is a senior investigator at the Center for Cell and Molecular Signaling and holds a joint appointment as Professor in the Department of Physiology.

Dr. Jain came to the US in 1985 as a Rotary Foundation Scholar after graduating from SMS Medical College Jaipur. He trained in neonatology in Chicago and was promoted to a full professor in 2001. He served as director of the postdoctoral training program in neonatology at Emory from 1994 to 2004 and in 2008 was named to the Blumberg Chair in Pediatrics at Emory.

For nearly two decades, Dr. Jain's research has focused on the physiology of sodium and fluid transport in the lung, and on strategies to improve lung fluid clearance. Dr. Jain is a member of several national scientific organizations including the American Thoracic Society, American Physiologic Society, American Academy of Pediatrics and the Federation of American Societies for Experimental Biology. He is an elected member of the Society for Pediatric Research and the American Pediatric Society. He is also a fellow of the prestigious Woodruff Leadership Academy and has received numerous teaching awards. Dr. Jain is recipient of the Ross Educator of the Year award from the Southern Society for Pediatric Research and the Most

Lucky Jain, MD, MBA

Emory University School of Medicine

Distinguished Physician of the Year award from the Association of American Physicians of Indian Origin (AAPAI) in 2015. Dr. Jain is the 2019 recipient of the Pediatric Pioneer award from Children's Healthcare of Atlanta.

In 2004, Dr. Jain received an executive MBA from the Goizueta Business School at Emory University and was later appointed Medical Director of the Emory-Children's Center. In 2007, and again in 2009, he was elected to the Board of Directors of Emory Healthcare, a leading healthcare organization in the US with 4 billion dollars in operating budget. In addition, he serves on the Board of Directors of the Children's Healthcare of Atlanta Clinical Care Network, the Goizueta Business School Healthcare MBA Program, and the Global Center for Medical Innovation at Georgia Institute of Technology.

Dr. Jain is editor-in-chief of the North American Clinics in Perinatology and serves on the editorial boards of BMC Pediatrics, Journal of Obstetrics and Gynecology, Neonatology Reviews, and Emory Health. He also serves as Faculty-in Chief of the Neonatology Boards Review Program and has been named to several endowed lectureships including the Narichi lectureship in 2011, Jerry Elliot lectureship in 2012, Dandiya oration in 2013, the Apfel lectureship in 2014 and the NICHD Duane Alexander Lecture in 2015, and Vidyasagar lecture in 2016. In 2014, Dr. Jain was elected Scientific Chairman of the International Neonatology Association and chaired its annual congress in 2016-2018. He was elected President of the International Neonatology Association in 2019.

Dr. Jain became a keen advocate of personal and institutional wellness after he suffered a heart attack in 2011. He has a keen interest in Vipassana meditation, is a golfer, and plays tennis. He has two children and is married to Shabnam Jain MD, a faculty member at Emory, and the one he considers his singular pillar of strength for over 30 years.

Sanjeev Gupta, MD, FRCP, FACP, FAASLD, FAPS

Sanjeev Gupta completed his medical education at University of Rajasthan in India, internal medicine residency at Postgraduate Institute of Medical Education & Research in Chandigarh, and GI fellowship at Hammersmith Hospital and Royal Postgraduate Medical College, University of London. He served as Instructor in Hepatology at University of Southern California, Los Angeles, and joined Liver Research Center at Albert Einstein College of Medicine where he rapidly rose to tenured Professor of Medicine and Pathology and was anointed as the Eleazar and Feige Reicher Chair in Translational Medicine. His impact is broad as member of centers for Liver, Diabetes and Cancer Research, Global Health, and Institute for Stem Cell Research and Regenerative Medicine. This includes service as Director for shared Core Facilities at the College, as Associate Director of the Institute for Clinical and Translational Research, and as Associate Director in the Clinical Research Training Program awarding MS degree. Moreover, he serves as Attending Physician in Hepatology at Montefiore Medical Center and is listed among "Best Doctors" in New York and USA. His clinical expertise includes viral and alcoholic hepatitis, metabolic diseases, drug toxicity and liver failure.

Dr. Gupta's research has been NIH-funded and focuses on basic and translational aspects of cell and molecular therapies of wide-ranging significance for human disease. He has been a pioneer in liver cell therapy with patent-awarded work in generating and using hepatocytes derived from stem cells. He contributed to the very first clinical trial of liver cell/gene therapy (in familial hypercholesterolemia), identified the paradigm-shifting role of liver sinusoidal endothelial cells in producing FVIII, developed cell transplantation models for Kupffer cells and hepatic stellate cells informing on liver inflammation and fibrogenesis, and established cell therapy mechanisms to regenerate liver in Wilson's disease as well as acute liver failure. His work in the role of ATM and STAT3 pathways for hepatic DNA damage response is pathbreaking for liver injury and regeneration, including nonalcoholic fatty liver disease.

Dr. Gupta is the author of over 500 scientific publications, including over 200 full papers, over 70 invited reviews, editorials or book chapters, and others. As principal or coinvestigator, he has contributed to over 100 million NIH grant dollars over 30 years. He routinely serves or chairs study sections for NIH, NCI, VA, DOD, various States and national scientific agencies and foundations for some 20 countries. His service extends to editorial boards in prominent scientific journals. His trainees serve as faculty in USA and internationally. Dr. Gupta is elected to fellowships of the Royal College of Physicians of London, the American College of Physicians, the American Association for Studies of Liver Diseases, and the American Physiological Society.

IPD TOWER at SMS Jaipur

Foundation stone done in April 2022 - 588 Crores Project

- Foundation laying function done by Hon CM Ashok Gehlot & attended by

- Dr. Devi Shetty
- Dr. Naresh Trihan
- Dr. Shiv Sarin
- Dr. Randeep Guleria
- Dr. Paul (Niti Ayog)

- likely to be completed in 32 months, work in fast progress

- 24 storey- tallest building in state with helipad

- 1200 beds

- Starting medical tourism

- Private rooms

- Wards

- ICUs

- Theatres

- Speciality labs, CT, MRI, etc.

- Multi speciality departments

- One floor of food court

- 3 Floor underground parking

- Teaching areas / auditorium

- Doctors lounge & cafeteria on 23rd floor

- Organ transplant department

- Doctors memorial in front

Totally digitalized.

Dr. Uday Chadha

President, RAJMAAI, USA.

Sub: Invitation to attend RAJMAAI Convention scheduled to be held from August 19 to 22, 2022 at NJ, U.S.A.

Dear Sir,

Warm Greetings and Best Wishes for Rajasthan Medical Alumni

Association (RAJMAAI) Convention From The Glorious Land of Rajasthan!

It is deeply regretted that I would not be able to attend the scheduled convention at New Jersey, U.S.A. due to pre-occupation here at Jaipur, India. However, it is indeed a pleasure and delight to know that RAJMAAI is organising yet another grand convention in this month to further their diligent and dogged pursuits in the growth of Medical Sciences. The untiring efforts of RAJMAAI during COVID-19 Pandemic Times remain unparalleled and brought a lot many accolades from within and across the globe!

The journey through the ravage wrecked by COVID-19 had been a long and arduous one, with moments of despondency and melancholy admiring in the cataclysmic upheaval, but tenacity and perseverance paved rich dividends, with recovery rate and mortality rate touching figures and setting standards for others to emulate. The Medical College Teaching Hospital Institute at S.M.S. Medical College and Attached Hospitals, Jaipur incidentally became the torch-bearer upholding its legacy of perspicacity and sagacity during the cataclysmic carnage of COVID-19 setting paradigmatic standards, laying down policies for Prevention and Medical Therapeutics, innovating and evolving in the process as per the changing dictates of the elusive ever-changing profile of the Pandemic. The Institute rose to the expectations of State of Rajasthan and the Nation, becoming the trend-setter in COVID-19 therapeutic and preventive protocol for the world to follow.

The contribution of a Medical College Teaching Hospital in the field of Medical Sciences is an archetypal fact and I am pleased to inform you that the State of Rajasthan has envisioned to open 33 such Institutes of Excellence in Medical Education in all its districts. In this respect, I take this opportunity to invite you all, The Great Sons of Soil of State of Rajasthan to visit and witness the undercurrent of change that the State is witnessing in the field of Medical Education, Patient Care and Research.

S.M.S. Medical College and Attached Hospitals, Jaipur made another resounding landmark along the frontiers of Medical Sciences opening new vistas along the three tenets of Medical Education, Patient Care and Research and was witness to the start of a new era of more sensitive and rationale approach towards the tenets of a duly recognised Medical College Teaching Hospital in the form of forthcoming renovated Institutes namely, The 24-Storeyed IPD Tower (with airlift transfer helipad facilities, the first of its kind across the State and Nation) and Institutes of Neurosciences, Cardiovascular Sciences, Ophthalmic Sciences and Public Health. The vision to evolve Transplant Medicine Specialities of Organ Transplantation involving liver, heart and lung transplants at the Institute (free of cost) with game-changing potential has been materialised adhering to prevailing exacting standards of Organ Transplant.

Rajasthan University of Health Sciences (RUHS), a State University that has been given the onerous responsibility to evolve Medical Education and Research as per the mandate of respective regulatory bodies of Government of India and the State, has taken up the assignment to evolve academia and examination process more exacting and reverberant to the changing needs. Efforts have been initiated to bring RUHS to International Pedestal interacting and collaborating with various Universities, both National and International. RUHS extends its formal invitation to visit its premises and help in the ongoing efforts of the Univeristy to be the Premier Leading University of the State and Nation.

I once again extend by Best Wishes and Success to The Forthcoming Convention!

Professor (Dr.) Sudhir Bhandari

Vice-Chancellor, RUHS, Jaipur

Dr. Ruma Devi

Director at AHPCL;
President at GVCS;
Goodwill Ambassador at
Tribes India.

RUMA DEVI

A role model and initiator of change she has been successful in generating continuous income for artisans and their families. Her business model in the field of innovation has won her critical acclaim at the national and international level and has helped women artisans reach out new clientele.

Coming from an orthodox and deprived background she single-handedly formed the self-help group and on a very nominal budget in her fight for equality for women artisans, Became a member of Gramin Vikas Evam Chetna sansthan (GVCS) and started working towards the upliftment of women in all spheres. (2008 -2010). Elected President GVCS, 2010. She collaboratively developed sister producer company, Applique Handicrafts Producer Company for artisans to come forward as a strong business entity.

A crusader for Justice Ruma Devi today is the face of empowerment. Her story has inspired numerous other women to stand up and question male dominance.

An Expert craftsman, she has recently trained 22,000 artisans from 75 villages, working in the Thar region of Rajasthan. She had been a promoter for hand crafted products made by Tribal women. She has herself modeled for handcrafted apparels made by Thar women on ramp shows at the state and national level. She has been a chief initiator and motivator in making women attend training workshops conceptualized by her for better skill development. She has also designed contemporary products in furnishing and apparels to reach out to the youth of today and popularize and promote hand crafted goods at international level. As president GVCS she has brought international fashion designers to the door step of rural women artisans proving to be a direct link between the two.

Connect Patient via Television

Integrated RPM/CCM/RTM/PCM kit that uses patient's TV!

Congratulation!
President Vinod Sancheti, MD
RAJMAAI

- Connects to TV via HDMI , deploy in 10 minutes
- Wi-Fi/LTE, Bluetooth built-in (no separate hub needed)
- All have TVs. Easy for elderly patient to use!
- Multipoint video call on TV, specialist, caregiver
- Integrated peripheral devices: BP, SPO2, BG, Thermometer, Spirometer, Stethoscope
- One touch Help button connects video call on TV
- Integrated medication reminders via TV
- Patient Education via Videos on TV
- Add caregiver with a touch of a button!
- Video Ready patient anytime!
- Multiple Telehealth services – one kit!
- **Limited free kits available for pilot**
- info@BLHealthcare.com 508.543.4150

Independent Journey

By the time I was born, India had not only got itself free from the colonial yoke but also adopted its fine constitution and elected a government through free and fair process. This was no mean achievement given near universal illiteracy and back breaking poverty.

Soon after, the elimination of the jagirdari system caused my family to slowly slide into financial difficulties. Meanwhile, India closed itself economically from the world but started building an infrastructure of fine educational institutions which a generation later produced highly talented engineers, doctors and scientists.

My early memories include China aggression in 1962 for which I went shop to shop for donation of 10 paise each punched in one-rupee cards. In 1965, I stood in long lines to buy American wheat and later fasted Monday nights while Pakistan bombed Jodhpur causing daily blackouts all over.

Although central planning caused a chokehold on industrial output, the Green Revolution put India on the road to food security. I joined SMS in 1971. By year end India had liberated Bangladesh giving us a new international profile.

However, a big dark cloud descended on the nation when we were preparing for Second MBBS exams. Emergency was declared and lasted all the way to my Internship in 1977. Those 21 months saw the cessation of Student Union elections, cultural programs, newspaper and magazine publication etc. To make matters worse my batch mate was murdered leading to months of strikes.

The next major milestone in Indian history was the liberalizing of our economy in 1991. Real progress followed at a rapid pace and is continuing till today. India became an outward looking nation and continues to ascend in world rankings.

Meanwhile in 1977, I decided to emigrate first to Zambia and then to the USA. Indians were treated with contempt and generally were accepted for post-graduate training in the worst urban ghetto hospitals. Discrimination was rampant. Through hard work, my fellow Indians established themselves to reach the highest echelons of their profession and society. This would not have been possible without the concurrent rise of Indias profile in the world.

On the joyous occasion of India's 75th Independence Day, I wish for India and its vibrant diaspora a continued successful path with a vigorously re-affirmed Indian identity.

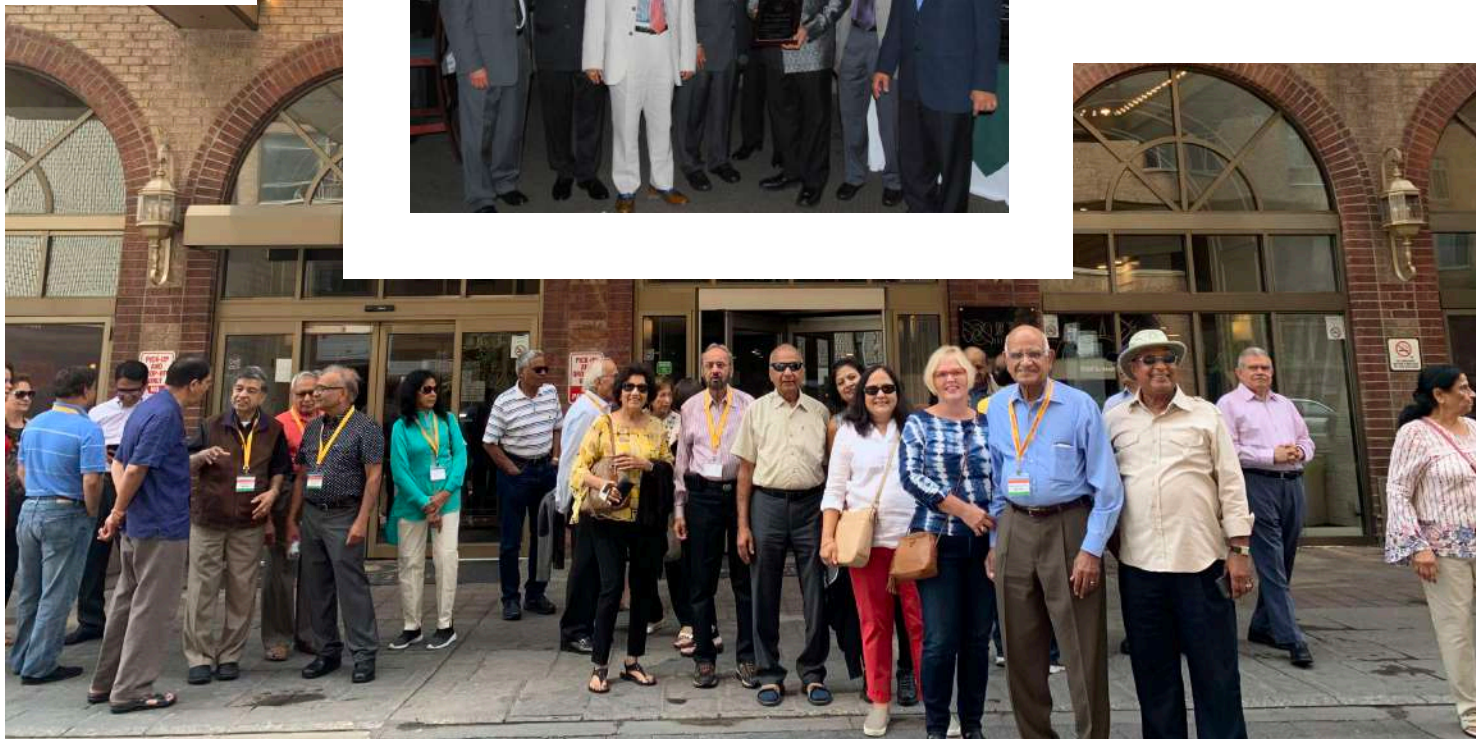

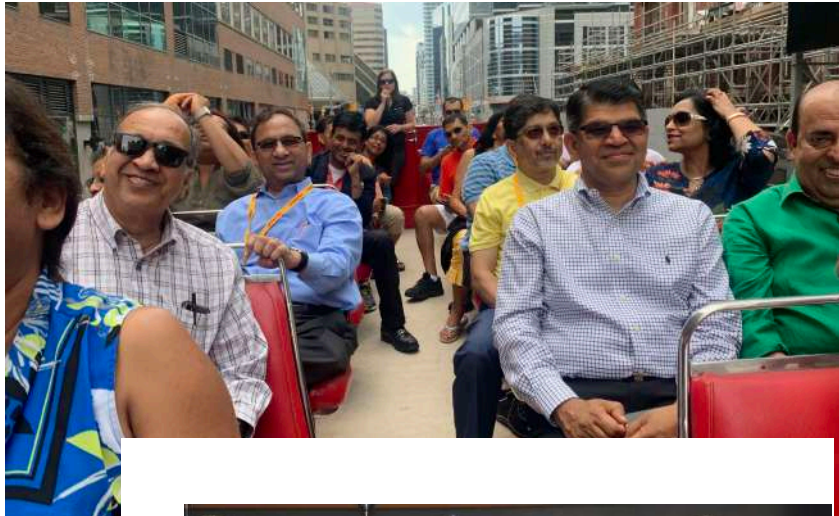

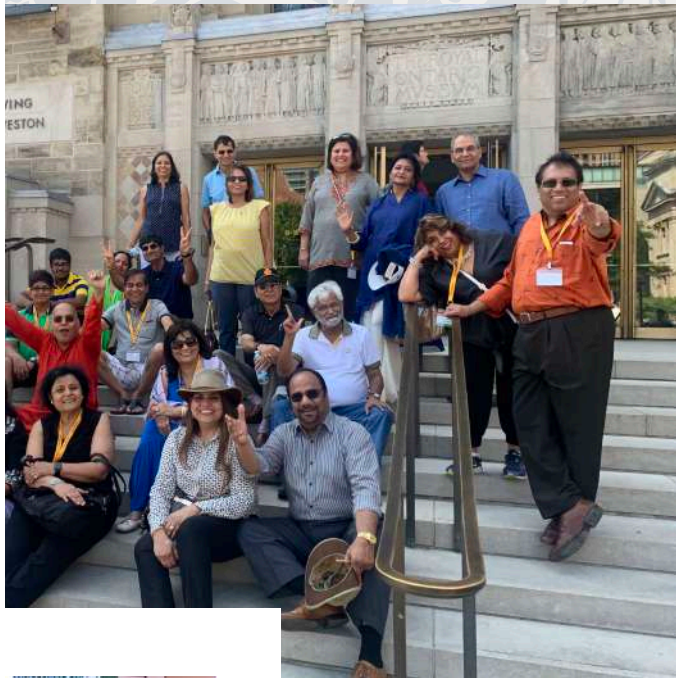

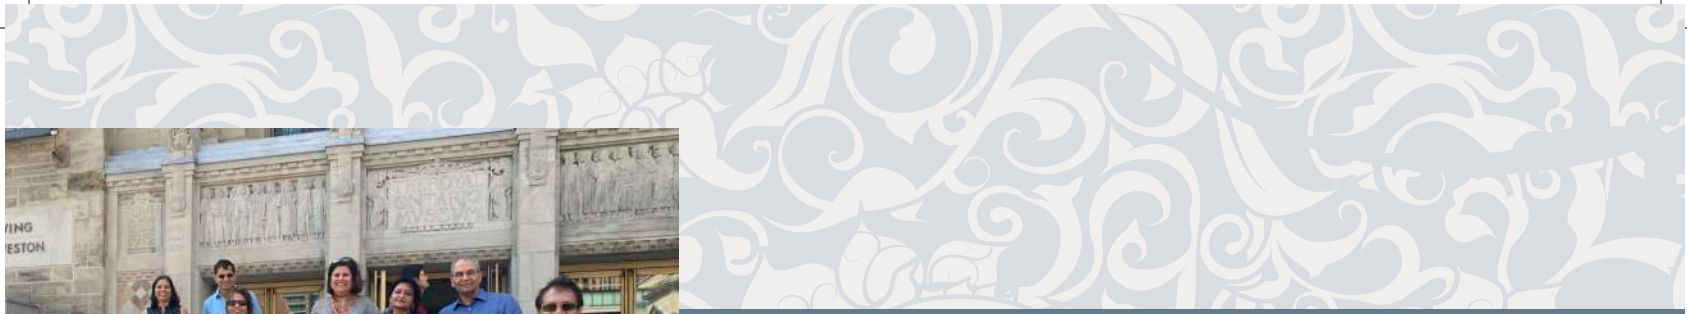

Daulat Haldea MD
SMS 1971

The College Canteen

by Rohit Dandiya, Revised in November 2020

The college canteen, though a sparse place and relegated to the back of the main building, was central to many different activities and alliances at the college. It was always a merry place where one could always count on finding a friendly face, tilt backwards on the broken 'Muddhas', (and help complete their demise) and chat with friends.

The canteen was about 1000 sq ft. in area with a plain, dry brown patch of lawn in the back that overlooked an ill kept housing nearby. Physically, it was a place you could forget easily. In later years as its popularity and use grew a new room was added for the use of female students. This added much excitement for the other 75% of the canteen users and quite likely increased the sales of the business.

Although the canteen had very little by virtue of furniture or decoration it was full of other accoutrements and cultural traditions of our college. There was a hierarchy of seating- in their first 6 months of college new medical students were not allowed inside the canteen as part of their initiation. God forbid, if unknowingly a hapless young freshman, were to use the canteen, the word would spread like wildfire that such a sacrilegious act had taken place. Soon a posse of aggressive seniors would descend on the poor fellow and shower invectives, threats and fear of perpetual harassment. This could be followed by a brisk round of ragging to ensure that such an act would not be repeated for a long time. As the seniority of students increased, they were allowed to use the mid section of the canteen. Finally, in the senior years one could sit anywhere in the canteen and yell and shout as they pleased.

The food here was simple, and the menu was small. Whatever was sold was of the highest taste, worst nutritious value, incredibly cheap and always deep fried. The mainstay was savory samosas, crisp kachoris. The mirchi pakoras were sometimes so hot that they could eviscerate the whole oral cavity! Of course, gallons of tea were consumed and often accompanied by smoking Wills or Four Square cigarettes. Carbonated drinks were just too expensive for most students. At that time there was no stigma attached to smoking and the cigarettes could be purchased as individual sticks 30-40 p each- a different era and a different place. Coffee was celebratory or a drink of the elite and not considered a part of the comfortable mainstream crowd. There were attempts made to serve full meal (thalis) but this was too traditional and never seemed to fit well with the carefree culture that was pervasive and vital to the canteen.

The canteen also became a hotbed of activity during the college election- deals were made, conspiracy theories abounded, strategies were discussed and sometimes violence also erupted when tempers ran high. I remember one such incident when the little furniture we damaged, and meager resources had was did not allow the canteen to be refurnished for quite some time.

RAJMAAI for a successful convention.** | →

From

Rohit Dandiya, Daulat Haldea and their families.

The College Canteen Continued...

There was a softer side of this little simple eating place. Towards the later years many romantic alliances were initiated here. Final year students, as they were getting ready to graduate, had started thinking of the next stage of life and were often seen as pairs in the girls' section (more gentle and conducive to romantic interlude). Even the bawdiest of the male bosses appeared subdued, more sophisticated in the company of the opposite sex. Their demeanor would be completely different – such was the power of being in the right room in the canteen. As a consequence, many a relationship that started there resulted in permanent alliances. I see many such couples during our RAJMAAI gathering in USA. As matter of fact, while writing this article I received a call from Daulat and Asha (nee Chauhan) Haldea who were the archetypical couple whose relationship also bloomed in the canteen. They have now been married for 44 years.

I was in the canteen earlier this year. I am happy to report that it looked fundamentally the same. What goes on there now, I do not know.

So, What is the Diagnosis here?

Daulat & Asha Haldea now- spent hours in the canteen

Water, water everywhere ...

And not a drop to drink.

Not fair! I look around my closet. Nothing to wear.

"Honey, help me!" My entreaties fall on deaf ears. My voice goes up open octave. Still no response. Finally, I try my usual level of loudness when talking to my spouse. This time, there is a response.

"Don't yell. I'm not deaf. What do you want? And since when have you started calling me "honey?" There are grandchildren around. Remember our culture. Just say, "Sunati ho!"
"I have nothing to wear!"

"That is supposed to be my line. You're a man. Just slip on jeans and a tee."

"But which jeans? I have the ones that are intact. Then there are the ones with three holes. Another pair with six, jagged holes. Not to mention the pair with more holes than cloth. They are the most expensive ones, I'll have you know!"

"Act your age, Nicky ke Bapu! Have you no shame? If your mother were alive, she would have sewn up all those holes. What's the matter with you? You are even beyond the age of a mid-life crisis."

"Thanks for reminding me. You are no spring chicken yourself ... Honey!"

I dodge just in time to avoid a Belan hurled at me with great velocity.

"You know, we have to go to the Rajmaai meeting. All our friends will be there, dressed to the nines. I see you are taking out your finest jewelry."

"But I'm a woman. You're but a lowly man. Your job in life is to bring home the bacon, while I tend to home and hearth. Who cares what you wear, as long as you go to work and keep me in jewels?"

"Honey, that ship has sailed a long time ago. I haven't worked in years!"

"Don't you honey me, Anjali's Bapu! And don't remind me. All my friends in the kitty parties boast about their husbands ... some are busy curing cancer, others are captains of industry, not to mention those who are in the running for Chief Minister while still in jail."

My male ego and self-respect severely wounded, I put on the nearest jeans I can find and a tee.

"Where are my socks, Nicky's Mom?"

"What's this new tack? Don't you know my name?"

I am starting a new trend

Shiv Harsh
